Ginger provides a warm accent to dark brown woods.

**U104** Alabaster

**H1950**

**H1599**

**F371**

**H178**

Light beige shades match all natural-coloured and brown woods as well as Fantasy decors that contain beige.

**U107** Pastel Yellow

**H1586**

**H1696**

**H199**

**F145**

Pastel Yellow can be used anywhere – as a contrast to dark, reddish woods, as a calming colour accent with mid-range natural shades, or with Fantasy decors that contain brown.

**U108** Vanilla

**H1582**

**H1698**

**H046**

**F148**

Vanilla has become a permanent fixture when teamed with dark woods such as Cherry or as a discreet accent to Beech, or even as a sophisticated contrast to brown Fantasy decors.

**U109** Corn Yellow

**H1709**

**H3704**

**H3128**

**F274**

Subtle Corn Yellow is an excellent match for dark woods with hints of yellow. It produces a harmonious contrast when paired with the striking Plum decors.

Pearl White is extremely neutral and highly flexible to use.

## COMBINATION POSSIBILITIES OF ZOOM® DECORS

**U114** Yellow

**H3016**

**H1555**

**H3128**

**H2572**

This bright intense Yellow works best with dark woods as an accent colour or as harmonious contrast to yellow toned decors.

**U116** Jasmine

**H1615**

**H1954**

**F309**

**F268**

With its reddish, beige tones, Jasmine creates warm combinations when used with red decors such as Cherry or Fantasy decors that contain red.

**U129** Sun Yellow

**H1950**

**H1137**

**H3739**

**H199**

The bright Sun Yellow goes extremely well with very dark or yellow-brown decors.

**U156** Sand Beige

**H1615**

**H3005**

**H207**

**H296**

Warm Sand Beige coordinates with all dark and grey woods and with Cappuccino or Black Brown from the Uni range.

**U182** Off White

**H1599**

**H1696**

**F900**

**F147**

Off White goes well with all grey-tinted decors and cherries with a slight green tint such as Piemont Cherry.

**U203** Caramel

**H3734**

**H3704**

**F901**

**H3739**

The warm shades of Caramel coordinate sympathetically with yellow-brown woods.

**U205** Cappuccino

**H3006**

**H3304**

**H207**

**H296**

Cappuccino provides a contrast to all grey-lacquered wood decors but can also be used with all dark brown woods.

COMBINATION POSSIBILITIES OF ZOOM® DECORS

**U212** Cream

**H1394**

**H1698**

**H207**

**H045**

Cream, with its hints of red, is a very warm shade which can be combined with all red toned woods.

**U216** Oyster

**H1554**

**H3382**

**F309**

**H047**

Pearl White is extremely neutral and very flexible to use.

**U222** Crema

**H3410**

**H1615**

**F491**

**H199**

Crema should be combined with very dark decors where it can create a sophisticated look

**U303** Orange

**H1555**

**H1932**

**F150**

**F583**

Orange paired with dark woods gives a very rich accent. Orange provides a fresh, lively contrast to light woods.

**U306** Red

**H1137**

**H3005**

**H207**

**H199**

Red is a warm contrast to very dark or grey-lacquered woods. But it also works with all red toned woods or Fantasy decors.

**U311** Burgundy

**H1277**

**H1932**

**H1428**

**F503**

Burgundy provides a warm contrast to very dark or grey-lacquered woods. But it also works very well with very dark Unicolours such as Anthracite or Graphite.

**U312** Canyon

**H3025**

**H1428**

**F309**

**F132**

Canyon goes very well with dark shades and Fantasy decors with a touch of red.

COMBINATION POSSIBILITIES OF ZOOM® DECORS

**U314** Water Lily Pink

**H3304**

**H1277**

**H1867**

**H045**

Water Lily Pink is a very fresh, lively colour which adds contemporary style to both light and dark woods.

**U315** Cerise Pink

**H3736**

**H1424**

**H1394**

**F253**

Vibrant Cerise Pink is a good accent colour for dark, grey and white-lacquered woods.

**U321** China Red

**H1979**

**H1137**

**F275**

**F516**

China Red coordinates with all red decors from light to dark and always creates a strong contrast.

**U323** Chilli Red

**H3306**

**H1615**

**F503**

**F202**

Chilli Red combined with dark grey and anthracite shades produces a modern, sophisticated look.

**U326** Pumpkin

**H1532**

**H1424**

**H1394**

**H199**

Pumpkin provides a warm contrast to very dark or grey-lacquered woods. But it also teams well with light, red toned decors.

**U327** Sunset

**H3128**

**H3400**

**H2572**

**F148**

Sunset picks out the yellow tones of Natural Plum and Woodstock and therefore goes well with these woodgrains.

**U330** Aubergine

**H3738**

**H3304**

**H1424**

**F161**

Aubergine works particularly well with grey-violet lacquered decors such as Avignon Walnut or Chateau Oak.

COMBINATION POSSIBILITIES OF ZOOM® DECORS

**U400** Violet

**H1277**

**H1867**

**H045**

**F161**

This pastel shade works best when combined with light woods where it produces a subtle contrast.

**U506** Azure Blue

**H1582**

**H1532**

**H1502**

**F369**

This dark blue provides a sharp contrast to lighter woods or a creates a harmonious contrast with darker woods.

**U510** Sky Blue

**H1873**

**H1733**

**H045**

**F306**

This bright, intense blue is a must wherever a fresh, contrasting colour is needed. Can be combined well with light woods.

**U512** Night Blue

**H3738**

**H3304**

**H1887**

**F797**

The violet Night Blue is best combined with dark decors which pick out the purple tones, like Avignon Walnut. For use as an accent, it is best combined with a warm, light maple.

**U514** Baltic Blue

**H1511**

**H1642**

**H1530**

**F135**

Blue is a very popular combination colour and always goes well with red woods such as Pear, Maple and Cherry.

**U518** Ice Blue

**H3006**

**H3129**

**H3704**

**H045**

Light, fresh Ice Blue reflects a contemporary style. It works well with light decors but goes particularly well with brown.

**U522** Powder Blue

**H1642**

**H3802**

**H1532**

**F135**

Blue provides a contrast to warm, red decors or a striking accent when combined with very light decors.

COMBINATION POSSIBILITIES OF ZOOM® DECORS

**U523** Cornflower Blue

**H1950**

**H1530**

**H1665**

**W1000**

Intense Cornflower Blue provides a harmonious contrast with dark, red woods such as Calvados and Cherry.

**U524** Lagoon Blue

**H3802**

**H1867**

**H1733**

**W1001**

Lagoon Blue is a very fresh, lively colour. This decor will always stand out and is best used with lighter woods..

**U525** Marine Blue

**H3411**

**H1521**

**H1727**

**U620** Pale Green

**H1277**

**H1137**

**H199**

**F509**

Pale Green is reminiscent of green frosted glass and therefore goes well with brown woods and aluminium.

**U621** Mint

**H1599**

**H1137**

**H199**

**H3362**

Fresh Mint combined with very dark woods gives an impression of elegance and sophistication.

**COMBINATION POSSIBILITIES OF ZOOM® DECORS**

**U622** Meadow Green

**H1920**

**H1334**

**H1642**

**F583**

This medium green is best combined with natural medium toned woodgrains to give a harmonious contrast.

**U625** Apple Green

**H3129**

**H1952**

**H1137**

**F238**

This yellow-green provides a bright accent to dark brown woods.

**U627** Avocado

**H1599**

**H3387**

**H3129**

**H199**

Subtle Avocado green combines extremely well with very dark brown woods.

**U628** Green

**H3411**

**H1532**

**H1727**

**H1521**

Strong, bright Green is highly suitable for children's furniture when combined with yellow maple, birch or pine decors.

**U630** Lime Green

**H1555**

**H3025**

**U701** Pastel Platinum

**H1954**

**H1642**

**H1599**

**H1952**

Pastel Platinum, a shade between light grey and sky blue, needs a warm contrast like Calvados Rose

## COMBINATION POSSIBILITIES OF ZOOM® DECORS

**U708** Light Grey

**H1232**

**F558**

**F550**

**F107**

Light Grey is very neutral and highly versatile, natural decors containing grey complement it very well.

**U713** Amethyst Grey

**H1873**

**H1979**

**F797**

**F064**

Warm, reddish Amethyst Grey was specifically developed for combining with light natural shades to give a warm colour contrast.

**U730** Basalt Grey

**H3304**

**H1334**

**H1277**

**F274**

The shades of warm Basalt Grey are reflected in grey-lacquered decors such as Light Concrete or Chateau Oak so these decors complement each other beautifully.

**U732** Dust Grey

**H3304**

**H3006**

**H207**

**H045**

This warm grey colour works best with light, pastel-coloured woods and worktop decors which also contain grey.

**U741** Lava

**H3304**

**H3078**

**F147**

**F900**

The reddish warm grey tones in Lava combine well with natural greys and brown decors.

**U750** Taupe Grey

**H3704**

**H1137**

**F696**

**H296**

This light grey tone can be used as a contrast to dark woods and decors that contain grey.

**U763** Perl Grey

**H3006**

**H1277**

**H045**

**F550**

This medium grey coordinates well with decors that contain grey tones such as Acacia and Sand Zebrano.

COMBINATION POSSIBILITIES OF ZOOM® DECORS

**U765** Silver Grey

**H1532**

**H1277**

**H1394**

**F554**

Dark Silver Grey can produce very strong contrasts when combined with light grey wood decors.

**U770** Mist Grey

**H1334**

**H1521**

**H1727**

**H3400**

Mist Grey contains a small amount of yellow and can therefore be combined with all wood decors with a hint of yellow.

**U773** Dusk Grey

**H1952**

**F550**

**F306**

**F040**

This shade of grey can be used as a contrast to dark woods and decors that contain grey.

**U775** White Grey

**F131**

**F558**

**F696**

**F107**

Light White Grey is best combined with Fantasy decors in the same colour area, otherwise the contrast is too great.

**U777** Platinum Grey

**H1521**

**H1582**

**F550**

**F107**

This yellow-toned grey goes well with yellow woodgrains like Honey Maple and Fantasy decors that contain grey.

**U803** Black-Brown

**U112**

**H3016**

**H3734**

**H2572**

Black Brown coordinates with all shades of cream and with dark, exotic fashion woods such as Teak, Walnut and Wenge.

**U805** Sepia

**H1137**

**H3304**

**H1424**

**H207**

Warm Sepia combines well with dark brown woods and with the natural shades of Core Beech.

**COMBINATION POSSIBILITIES OF ZOOM® DECORS****U961** Graphite**H3363****H3802****F145****F040**

Graphite offers a perfect contrast to light woods, whilst with decors from the same colour area it can be harmoniously combined.

**U963** Dark Grey**H1334****H1887****H1733****F275**

Graphite offers a perfect contrast to light woods, with decors from the same colour area it rather creates a harmonious combination.

**U999** Black**H1883****F902****U114****F202**

Black can be combined with nearly all unicolours and woodgrains; it is just important to know what ambiance (contrasting, exclusive, harmonious etc.) you wish to create.

COMBINATION POSSIBILITIES  
OF ZOOM® DECORS

COMBINATION POSSIBILITIES OF ZOOM® DECORS

Wood reproductions

Combination Possibilities

**H045** Light Planked Timber

Light woodgrains often need a warm contrast such as red, but grey or blue can also be combined to produce a harmonious effect.

**H046** Plum Butcher-Block

Plum can be used in combination with many Uni colours such as yellow, green or beige.

**H047** Dark Plum Butcher-Block

Dark Plum creates a rich effect when used with Premium White or other shades of beige.

**H1137** Black-Brown Ferrara Oak

Black-brown woods often need accent colours such as red or yellow. Light green or stainless steel make a sophisticated combination.

**H1232** Loire Ash

The yellow shades of Ash combine well with grey and green tones.

**H1277** Light Lakeland Acacia

Light Lakeland Acacia combines well with many grey and lilac shades, whilst dark red also works well as a contrast.

**H1284** White Ash

The neutrality of white woods means they can be combined with many of the Uni colours. Decors in a similar colour area, such as a light grey, work well in combination.

COMBINATION POSSIBILITIES OF ZOOM® DECORS

**H1334** Light Ferrara Oak

**U156**

**U607**

**U730**

**F274**

The subtle green-grey tones of Ferrara Oak combine well with green-grey and muted colour tones.

**H1342** Natural Montana Oak

**U222**

**U312**

**U730**

**F371**

The hints of orange within the Montana Oak work well with red toned uni colours, as well as warm grey decors.

**H1394** Sand Cremona Oak

**U765**

**U518**

**F309**

**F136**

The white pores of Cremona Oak make it a good match for all white and grey decors, but the red tones in this decor also suggests combination possibilities with red Fantasy decors.

**H1424** Woodline Cream

**U205**

**U116**

**F042**

**F148**

The neutrality of white woods means they can be combined with many Uni colours; reddish beiges or Cappuccino as they pick up the light cream tones in this Woodline decor.

**H1428** Woodline Mocha

**U805**

**U156**

**F145**

**F751**

This shade of mocha can be combined with all brown and warm beige shades, but yellow as an accent colour also works very well.

**H1502** Alder

**U506**

**U112**

**F132**

**F491**

This warm, reddish natural shade goes well with all the primary colours.

**H1509** Sapele Mahogany

**U116**

**U999**

**U107**

**F270**

Dark, rich woodgrains need a light contrast such as beige, or alternatively they can be combined with black.

## COMBINATION POSSIBILITIES OF ZOOM® DECORS

**H1511** Bavarian Beech

**U527**

**U109**

**F509**

**F135**

This medium toned beech can be combined in many ways with nearly all Uni colours. Yellow and blue are popular combinations.

**H1518** Natural Beech

**W911**

**U108**

**F132**

**F137**

The light yellow shade of this beech goes very well with yellow-toned Unicolours such as Vanilla and worktop decors that contain green.

**H1521** Maple

**U525**

**U765**

**U622**

**F150**

This yellow maple goes perfectly with Unicolours and Fantasy decors that contain green and blue.

**H1530** Swiss Pearwood

**W911**

**U222**

**F509**

**F238**

Elegant, red toned woodgrains should be used with silver or aluminium.

**H1532** Pearwood

**U532**

**U963**

**U730**

**F268**

The reddish-grey features of this natural shade suggest combinations with similar Uni and Fantasy decors.

**H1553** Natural Myrtle

**U113**

**U107**

**U999**

**F309**

Dark, rich woodgrains need a light contrast such as beige, or alternatively they can be combined with black.

**H1554** Brown Myrtle

**U093**

**U109**

**F751**

**F065**

Brown woodgrains always look good with yellow Uni and Fantasy decors.

COMBINATION POSSIBILITIES OF ZOOM® DECORS

**H1555** Wenge

**U114**

**U107**

**F371**

**F064**

Wenge combined with a bright yellow sets a striking, modern accent. Softer combinations include light beige and vanilla shades.

**H1582** Ellmau Beech

**U108**

**U506**

**U607**

**F135**

This medium toned beech can be combined in many ways with nearly all Uni colours. Yellow and blue are popular combinations.

**H1586** Weathered Beech

**W980**

**U107**

**F751**

**F135**

This medium toned beech can be combined in many ways with nearly all Uni colours. Yellow and blue are popular combinations.

**H1599** Chocolate Tyrolean Beech

**W1000**

**U104**

**U621**

**F371**

The warm chocolate brown of the beech is extremely elegant with used with a light beige or Pastel Green, whilst red can also produce a harmonious combination.

**H1615** Romana Cherry

**W1000**

**U222**

**U156**

**F275**

The walnut shade of this cherry is an excellent match for a light beige or shades of brown.

**H1642** Natural Crystal Maple

**U622**

**U116**

**F268**

**F371**

This warm, red toned maple lends itself to combinations with all the primary colours. Decors containing red are particularly effective.

**H1665** Milano Cherry

**U113**

**U107**

**F509**

**F145**

This reddish brown cherry containing pearlescent goes well with aluminium and with shades of beige and vanilla.

COMBINATION POSSIBILITIES OF ZOOM® DECORS

**H1696** Piemont Cherry

**U182**

**U607**

**F137**

**F503**

The lively, slightly green Piemont Cherry coordinates well with yellow toned beiges and decors containing green; worktops should be subtle granite and marble designs.

**H1698** Natural Lombard Cherry

**U107**

**U104**

**F796**

**F136**

Reddish cherry woods should be combined with beiges with a hint of yellow. Worktop decors containing red are a good match.

**H1699** Manhattan Cherry

**U112**

**U963**

**F104**

**F132**

Elegant, reddish woods suggest combinations with beige, grey or aluminium.

**H1704** Natural Cherry

**W911**

**U108**

**F039**

**F136**

Yellow-red toned cherry woodgrains combine well with yellow and warm shades of beige.

**H1706** Cherry

**U104**

**U612**

**F104**

**F145**

Yellow-red toned cherry woodgrains combine well with yellow and warm shades of beige.

**H1709** French Walnut

**U107**

**U607**

**F132**

**F751**

The yellow tones of this walnut coordinate with yellow and beige, but combinations with green are also successful.

**H1727** Natural Birch

**U607**

**U525**

**U770**

**F369**

The yellow birch goes perfectly with Unicolours and Fantasy decors that contain green and blue.

COMBINATION POSSIBILITIES OF ZOOM® DECORS

**H1733** Mainau Birch

**U611**

**U532**

**U963**

**F115**

The light natural shades of the birch can be combined well with warm Uni colours such as red. Dark greys or turquoise give a contemporary look.

**H178** Afzelia Butcher-block

**U104**

**U303**

**U327**

**U608**

The dark Afzelia Butcher-block can be used effectively with orange. Light beige creates a harmonious combination.

**H1832** Amber Pearwood

**U107**

**U607**

**F371**

**F137**

This slightly yellow-green pearwood works well with decors from the yellow and green range.

**H1834** Sycamore

**U608**

**U312**

**U732**

**F150**

The light Sycamore coordinates very well with pastel greens, earthy reds or neutral greys.

**H1867** Cream Canadian Maple

**U400**

**U314**

**U529**

**F501**

Pastel shades coordinate well with the nearly-white, neutral maples. Or try a strong, fresh contrast with pink or petrol.

**H1869** Natural Canadian Maple

**U306**

**U730**

**F554**

**F136**

The natural yellow tones look great when combined with warm reds or greys.

**H1873** Field Maple

**U713**

**U532**
